---

# Welcome to Capture!

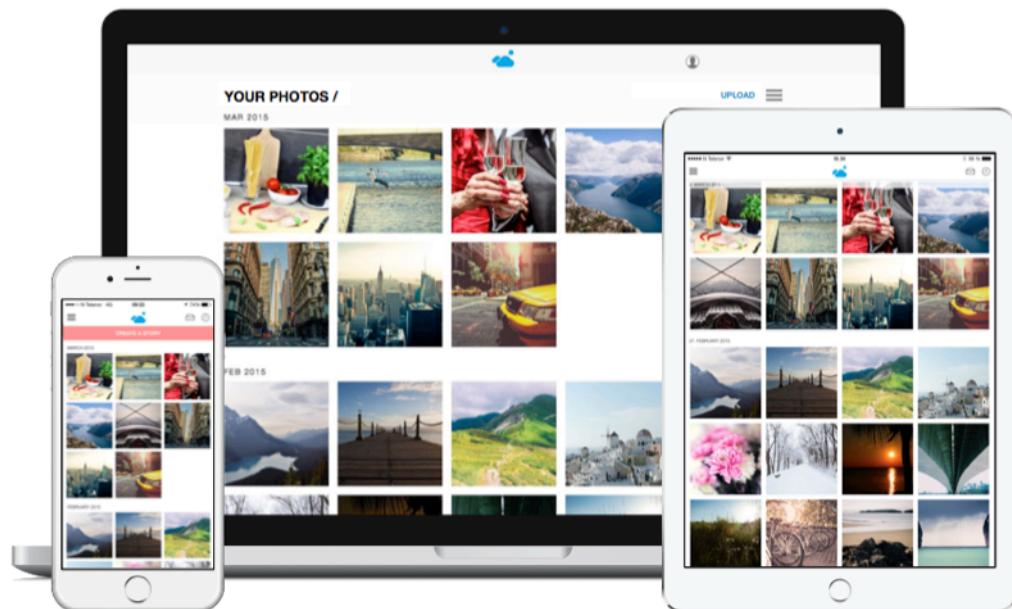

With Capture, you can **save**, **see** and **share** your photos and videos across all your devices – mobile, tablet and PC/ Mac.

Once you have uploaded photos and files to Capture, they are safely stored, and you can access them on all your devices.

With Stories, everyone you invite can contribute to a common album, where you can upload, view and comment each other's photos and videos.

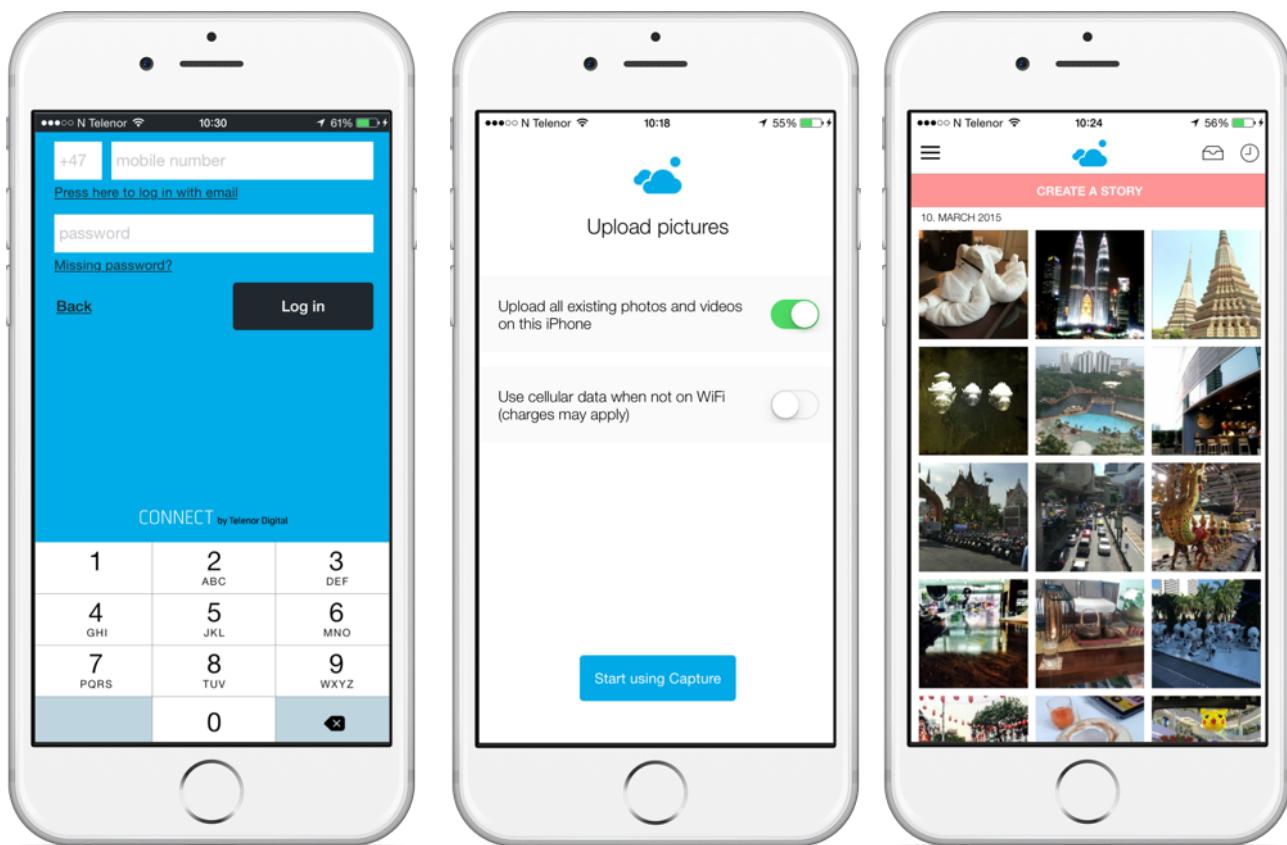

Download Capture to your mobile phone and tablet, and log in to <http://see.capture-app.com> to access your photos — anywhere and anytime.

This guide will help you get started with Capture.

# Get started on mobile or tablet

1. Download and install Capture from the Apple App Store or Google Play
2. Log in using your phone number/ e-mail and password.  
(If you have not set a password, you have to do this via the e-mail you received from Telenor Digital upon registration)
3. Choose if you want to upload your old photos to Capture (recommended)
4. Choose whether you want to upload photos only when connected to Wi-Fi, or whenever you are on a mobile network
5. View your timeline with the photos you have uploaded to your Capture account.

# Save your photos in Capture

With Capture, all of your photos and videos will be automatically saved from your phone or tablet to your Capture account, if you have chosen this option.

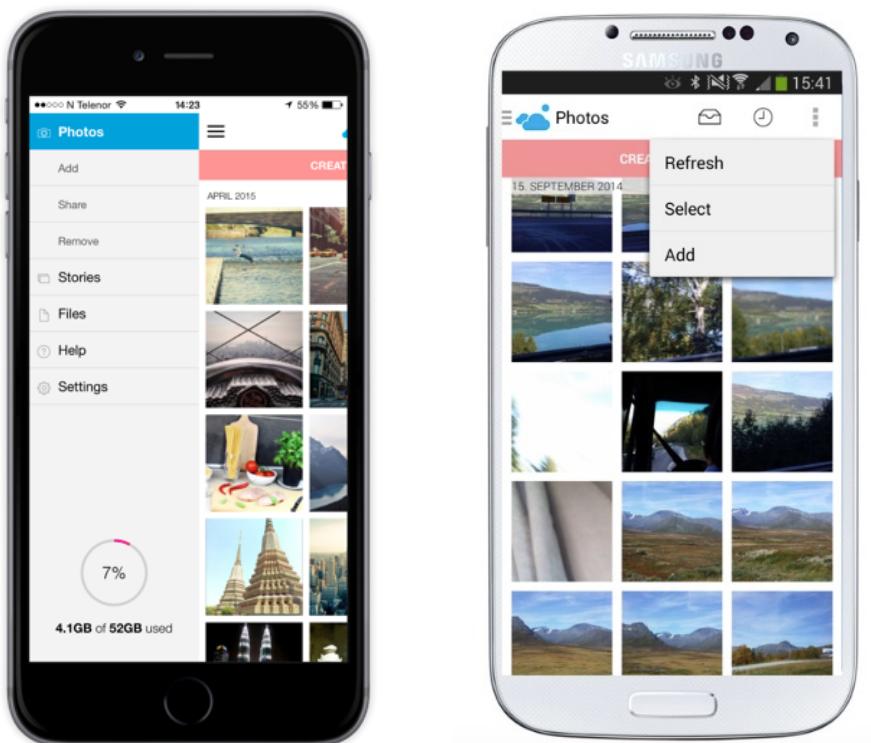

Note: Capture users on iPhone must open the Capture app before it starts uploading new photos  
(Apple does not allow apps to upload photos and videos automatically without launching the app)

## Manual upload of photos

If you want to upload photos from your phone that have not yet been uploaded, you can do this manually.

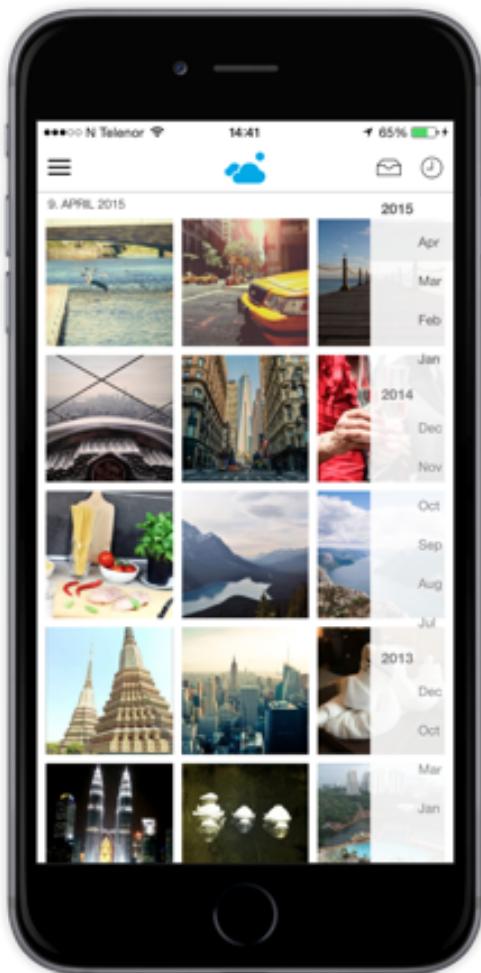

**iOS:** Open menu on [left side](#), and select [Photos](#) and [Add](#)

**Android:** Open menu in [upper right corner](#), and select [Add](#).

# View your photos with Capture

All your photos in Capture are sorted in a practical timeline, where you can easily browse your photos by scrolling up and down, on your mobile phone or tablet, or by logging into <http://see.capture-app.com>.

## Timeline and full-screen view

By clicking the clock symbol in the upper right corner, you can easily jump to a specific year and month to relive your memories.

To see your photos in full-screen view, simply tap the picture in the timeline, and you can swipe between your photos.

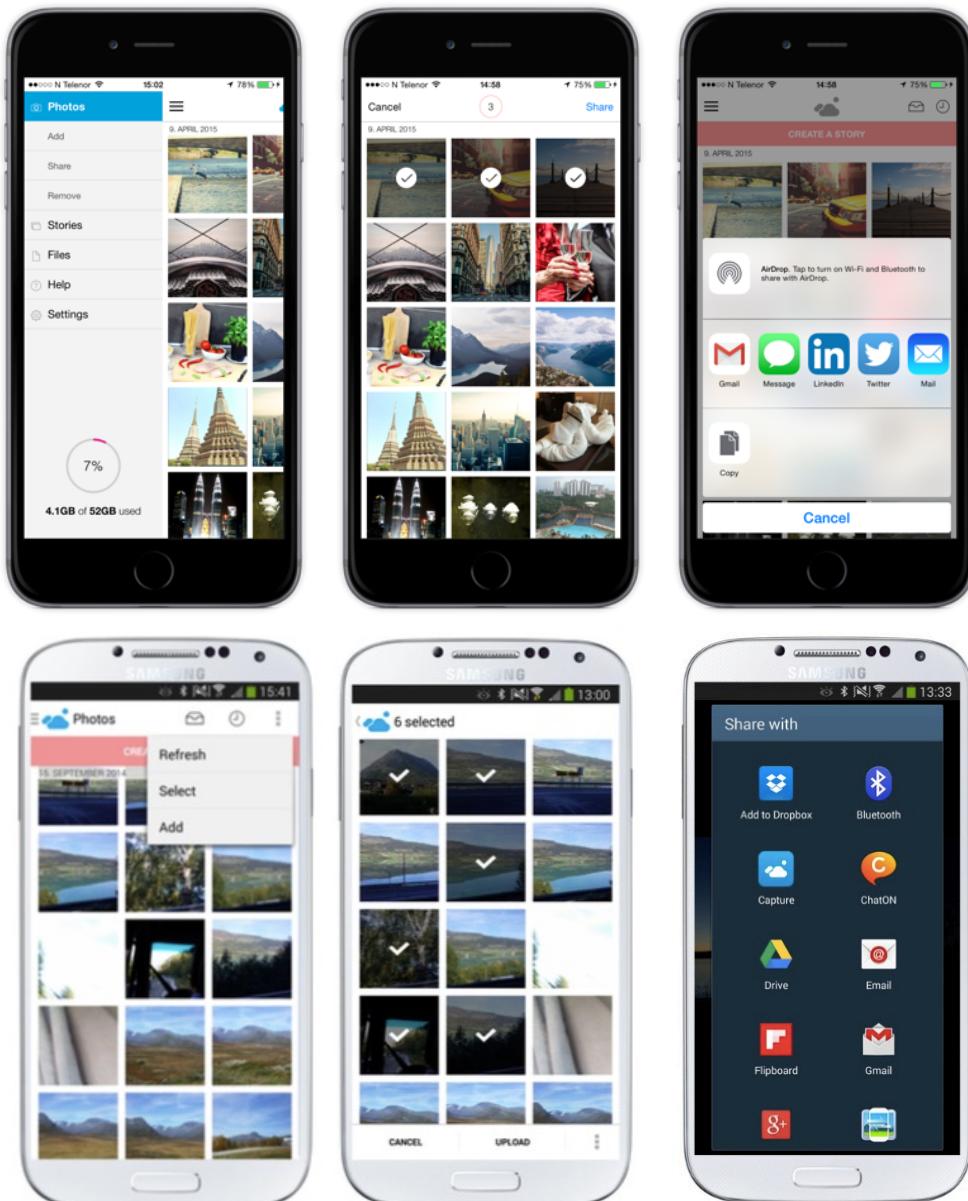

# Share your photos with Capture

You can share your best photos and videos with friends and family.

To share photos and videos, select the ones you want to share, and how you want to share them (SMS, e-mail, social media).

**iOS:** Open menu on [left side](#), select [Photos](#) and [Share](#).

**Android:** Open menu in [upper right corner](#), and select [Share](#).

# Stories in Capture

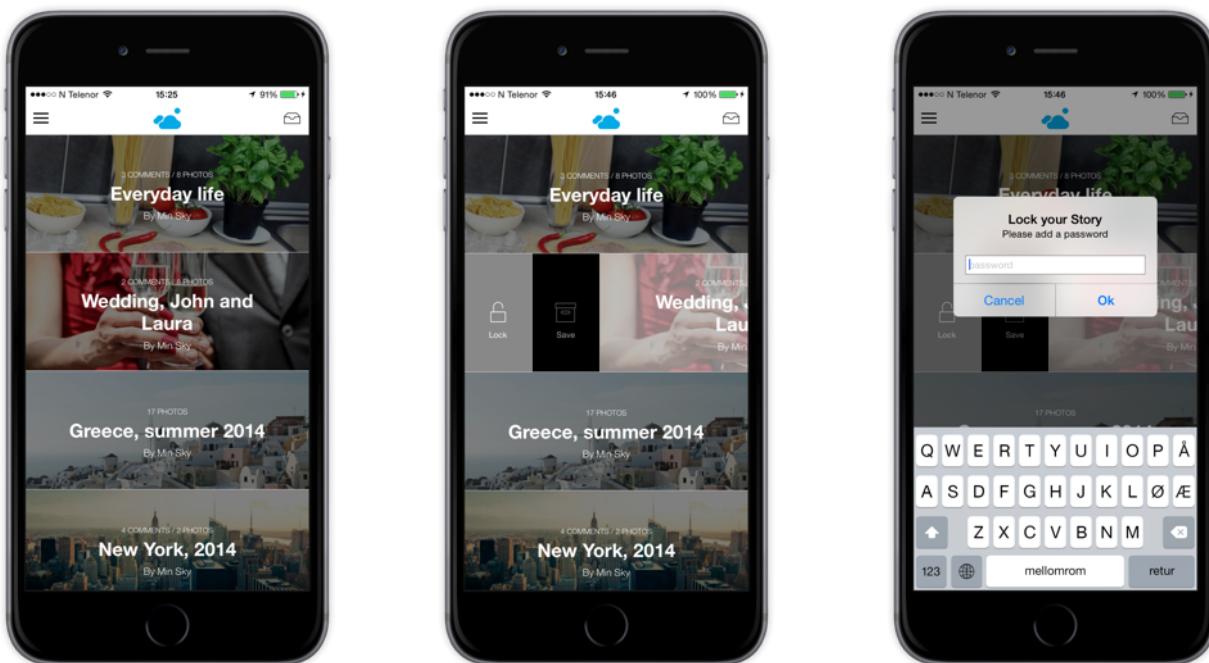

Stories are shared albums in Capture, where everyone you invite can upload, view and comment each other's photos and videos. You can also create private Stories in your own account if you do not want to share them with anyone else.

You can find all the Stories you have made or joined in the left menu by pressing Stories. Join a Story to view, add and comment on photos.

The icon in the top left corner will display notifications when someone else adds comments or photos to your Stories.

To [delete](#) a Story, [swipe left](#) over the Story in the list.

You can lock your Story by [setting a password](#). Invited friends will then need the password to view the photos, and add their own photos to the Story. You can lock / unlock a Story by [swiping right](#).

## How to create a Story

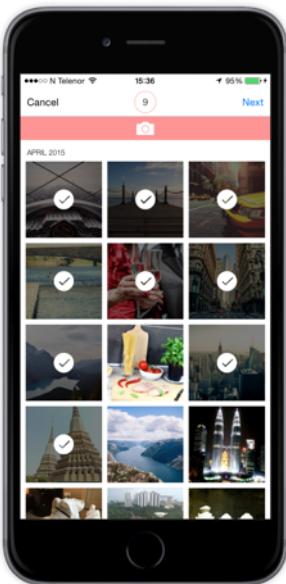

The following steps will show you how you create and share a Story in Capture.

1. Tap Create a Story in the top banner.

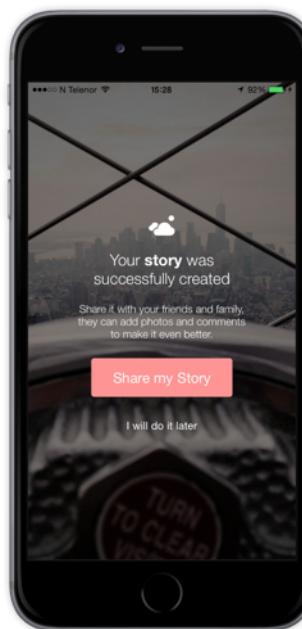

2. Select the photos you want to add to the Story.

3. Tap Next after selecting photos.

4. Give your Story a title.

5. Choose if you want to share your Story.  
(You can also invite people later)

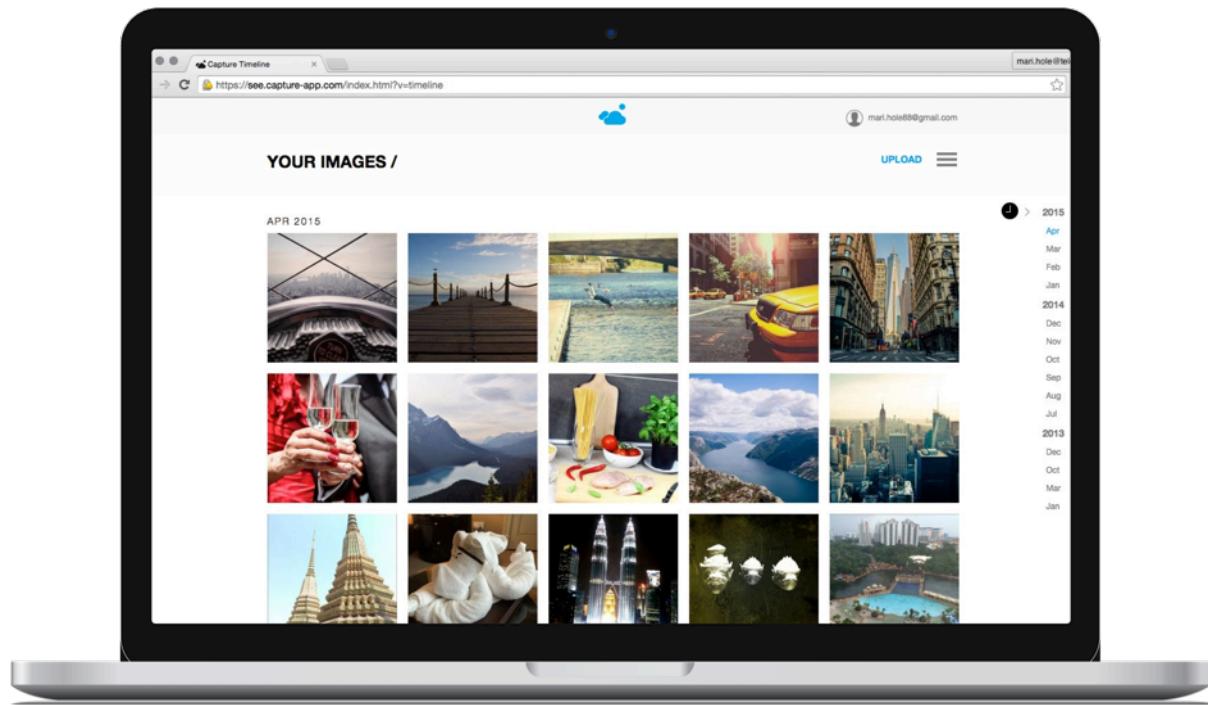

6. Add photos or comments, or invite friends to join once you have created a Story

# Getting started on web

Go to <http://capture-app.com> to log in to Capture.

When you have logged in, you get the same view of your photos and videos as you have on your mobile phone and tablet.

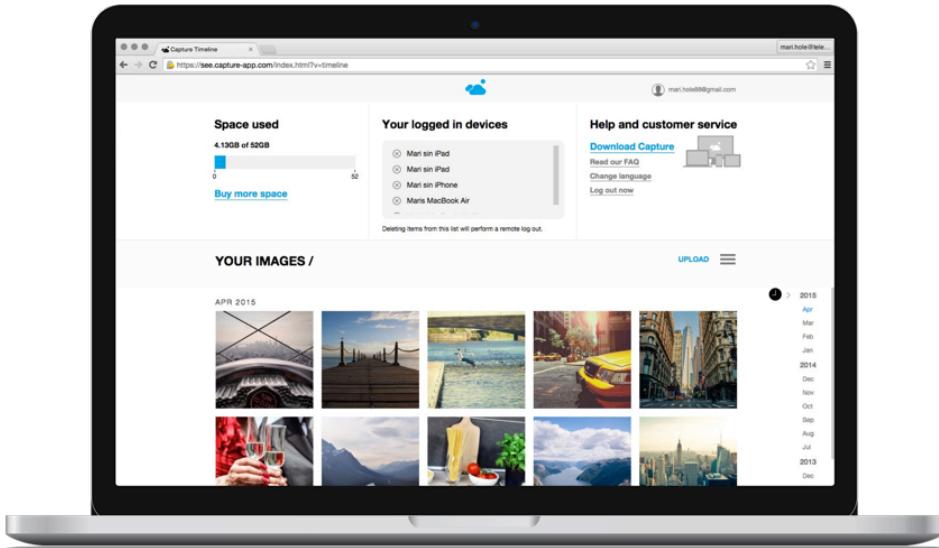

To see a picture in [full-screen view](#), click on it, and you can scroll through your photos in full-screen.

To [upload photos](#) or files from your PC / Mac, click upload in the upper right corner. Then, select the files or folders that you would like to upload from your PC / Mac to Capture. Now, you can access them from all your devices.

You can gain access to your [Trash](#) folder from your browser. The Trash folder keeps deleted files for 30 days after you have deleted them, in case you want to restore some deleted files. You find the Trash folder in the menu at the upper right corner, next to the Upload button.

# Administer your account

When logged in to your Capture account on the web, you can click on your e-mail in the upper right corner. Then, you can see the status of your account. Your information is separated into three columns:

- Storage:** On the far left, you can see how much storage you have used and how much you have available. You can also access the online store to purchase more storage.
- Devices:** In the middle, you can see which devices are connected to your Capture account. If you want to deny any of these devices access, simply click the X-button to disconnect the device.
- Help:** On the right, you can access our Help Section with our FAQ and Support contact information. Here, you can also change the language of your account.

## Change password, e-mail, phone number

To change the password, e-mail, phone number and details of your Capture and Connect account, go to My Connect Account at <http://telenordigital.com/>
